

Sergio Luis Barrios Palacios

Computer Engineer

Bogotá, Colombia - regiosen@gmail.com

PROFILE

Passionate and dedicated Game Developer with a strong foundation in Computer Engineering. Skilled in Unity, C#, Python, and game development methodologies, I bring a creative approach to solving challenges.

Experienced in leading technical projects, collaborating with teams, and producing efficient, high-quality solutions. Currently seeking entry to the game developing industry to apply my technical background to build immersive experiences. Certified Unity Programmer.

GAME DEVELOPMENT PORTFOLIO

WORK EXPERIENCE

Ease Solutions, Bogotá

Software Engineer | March 2021 - Present

Led the development of services integrated with the Jira API, focusing on enhancing project management workflows. Designed and implemented Excel and Word plugins that automated bulk issue creation and document parsing. Managed technical teams and ensured project delivery.

Pevaar, Bogotá

Software Engineer | February 2020 - March 2021

Worked on full-stack web development using .Net, Angular, and SQL Server. Contributed to designing backend services with a focus on scalability. Adapted enterprise tools with game-like interfaces as proof-of-concept for improving user interaction and engagement.

Ivory Digital Denture, Caracas

Software Developer | October 2018 - August 2019

Utilized Unity and C# to develop an innovative application for designing and 3D printing personalized dentures. Leveraged game development tools to streamline the design process, focusing on real-time user interaction and 3D model optimization.

EDUCATION

Universidad Simón Bolívar, Sartenejas

Computer Engineering | Graduated November 2019

Best Paper Award: "Web Scraping vs Twitter API: A Comparison for a Credibility Analysis" (Issued by @WAS, Nov 2020)
